

765TH BOMBARDMENT SQUADRON (H)
461ST BOMBARDMENT GROUP (H)
Office of the Combat Intelligence Officer

APO 520, NY, NY
31 March 1944

SUMMARY OF THE SQUADRON HISTORY FOR THE MONTH OF MARCH

During the month members of the Squadron reported in after spending weeks trying to get back to the organization. At the end of the month almost all had reported in. However, there are a few still enroute from the states.

Two officers were promoted during March. 1ST Lt. William F. Foster, Squadron Combat Intelligence Officer, was promoted to the rank of Captain. A few days later Captain Sidney Rainen, Squadron Executive Officer, was promoted to the rank of Major. There were no promotions among the enlisted personnel. However, there were some reductions. One Staff Sergeant, two Sergeants, and one Private 1ST Class were reduced to the grade of Privates.

Members of the aircrews and ground crews guarded the Squadron Area and all of our airplanes on the line twenty-four hours a day, in all kinds of weather. A good job was done by all.

Everyone worked together in perfect unison to get the planes, equipment, and crews in condition to perform combat missions. Several Squadron and Group practice missions were flown during the month. On one Group practice mission, in which twenty-nine planes participated, twelve were from this organization, and they all completed the mission. Bad weather and mud limited the missions during the month.

On March 18th, 1ST Lt. B. J. Murphy dropped the first bomb upon Italian soil for the 765th. It was dropped from 18,000 feet at 40° 13' North and 16° 45' West. It was a 100-pound demolition bomb. The C.E. was 90 feet at 3:00 o'clock. The plane, #717, was piloted by our Squadron Commander, Major Robert E. Applegate, with 1ST Lt. Robert K. Dusenberry as his Navigator.

Movies were held every fourth night during the month at the Enlisted Man's Service Club. There was a large attendance each night they were held.

During their spare time, officers and enlisted men worked on the construction of their respective clubs. Tile was purchased and laid on the floors by local workmen. Pictures were painted on the walls by Pfc. S. Sasvay. The Officers Club was finished and formally opened on March 25th. The Club was named, "Club Amazon." Colonel F. E. Glantzberg, Group Commander, and all the Squadron Commanders attended the opening as guests of the officers of this organization.

The closing of the month found improvements everywhere. Everyone spent most of their spare time trying to make their quarters more comfortable. The Squadron Area was improved in many ways. On the line, men adjusted themselves to working under conditions that are to be

found here in Italy. Combat crews were much better prepared and were anxiously awaiting word for them to start on their actual missions over enemy territory.
